

Hello, dear host family,

My name is Samat. I'm seventeen years old. I live in Kyrgyzstan, in Bishkek. Bishkek is the capital city of Kyrgyzstan. Our family consists of four people they are: my Mom – Mirgul who is nearly 40 years old, my little brother – Azamat who is fourteen years old, and our youngest member is my little sister – Ayesha-Shirin who is only two years old. I love my family very, very much. I try to do everything that may be useful for us. I study in Tokmok Kyrgyz – Turkish high school. Tokmok is a town, which located sixty kilometers east from Bishkek. We study scientific lessons in English and all other lessons in either Russian or Kyrgyz. I like to study there. We stay in dormitory for five weekdays and come back home for weekends.

I am happy, tolerant, reserved, outgoing and fun loving person but sometimes I may be a bit lazy. But any way I like to do some work, improve all my skills and help people. I hate to tell lies and don't respect liars.

Why do I want to come to U.S.? There are many reasons for that. First of all, it's because I want to supplement my mother's life. We have no father and it's not easy to bring up three children on her own. If I go to America, it will be easier to educate two children instead of three. I really want to help my mother. Second reason is that I like English very, very much. And I want to learn it at advanced level. And I'm outgoing and curious person. I like to meet new people and cultures. American culture is very interesting that's why I want to learn everything about it. I want to learn law and systematic way of tranquility. Third is because I want to learn how must government work, which way it should control the country. Fourth reason is my desire to develop good relationship with you.

I hope we'll see each other soon, bye.

*Sincerely yours*

*Samat*
