

Dear fellow home landers, it is my pleasure to tell you about achievements of our charter school in the city of Sacramento.

From the year 2000 to 2003 I worked as a principle from the day it was founded.

The first student body we had was 70 students. In there years of operation that number grew in ten times (from 70 to 700).

Now our school has 3 different campuses in various areas of Sacramento city. There are a lot of Students wishing to get in our school. The waiting list is 200 students.

**Our main goal-
Prepare student for a successful
acceptance to College and
University.**

I would like to share the basic advantages of charter schools:

- Adaptation of students and parents to the American education system
- Fulfilling the best traditions of the Soviet education
- Preservation of a national language and culture
- Creating friendly atmosphere and communications between parents, teachers and office employees;
- Development students spiritual, creative and physical abilities.

Our school provides a high level of academic education. This year, it was recognized as the best school of the year, among 65 other schools in our district.

Right now American Charter Academy has invited me to work on opening new charter schools in different cities of America.

We plan to open such schools in the following states: Florida, Oregon, Illinois, Idaho, Colorado, Texas, New York, Pennsylvania, and Arizona.

It will be my pleasure to meet you and to answer any questions you might have.

Sincerely Sergey Soroka.

Sergey Soroka

What Are Charter Schools?

Charter schools Charter schools are independent public schools, which are controlled through local school boards or through state education departments.

In charter schools teachers have the rights on how to teach. They can use the most progressed methods and strategies for education.

Results are important - high level of education for students.

Students are taught only in English language and all teachers, without exception, must have accreditations

To preserve national language and culture, charter schools add required teachings in Russian language and literature. With this students receive credits for taking second language.

Students receive all necessary books and workbooks free of charge.

Charter schools are required to maintain government standards, which are also required in public schools.

When student transfers from public schools in charter school he still remains in public school system.

Unlike from public school with large amount of students, charter schools generally are not larger then 200-400 students. This allows maintaining discipline and order on high level.

WE PROVIDE QUALITY EDUCATION THAT USES CREATIVITY AND INITIATION AS

WANT TO LEARN MORE? QUESTIONS ABOUT YOUR KIDS EDUCATION IN CHARTER SCHOOLS?

WE WILL BE MORE THEN GLAD TO ANSWER THEM.
